

WAYNE STATE UNIVERSITY

Center for Urban Responses to Environmental Stressors
(CURES) P30 ES020957
Integrative Biosciences Center (IBIO)
2016-2017 Seminar Series

Thursday September 15th, 2016 Sol Bobst Ph.D., MBA, DABT, President & Principal Advisor of Toxsci Advisors

Title: *Challenges for the Toxicologist in the Courtroom: the 5 Question Approach to Specific Causation*
Area of Expertise: *Toxicologists in the courtroom*

Thursday November 17th, 2016: Qinghua Sun, MD, Ph.D. Professor College of Public Health The Ohio State Univ.

Area of Expertise: *Environmental stress (air pollution) in cardiovascular and metabolic disease*

Thursday December 1st, 2016: Ellen Silbergeld, Ph.D. Professor Bloomberg School of Public Health John Hopkins

Area of Expertise: *incorporation of mechanistic toxicology into environmental and occupational health policy.*

Thursday December 8th, 2016: Santosh K. Katiyar, Ph.D. Professor Dept. of Environmental Health Sciences University of Alabama

Area of Expertise: *UV and skin cancer, chemoprevention by phytochemicals*

Thursday January 12th, 2017 Jim Dunn, Ph.D., Professor Department of Health, Aging & Society McMaster University

Area of Expertise: *Health & Aging*

Thursday January 26th, 2017: Lauren Wise, Sc.D. Professor School of Public Health Boston University

Area of Expertise: *Reproductive health and Environment; Investigator on the Black Women's Health Study*

Thursday February 2nd, 2017: Johann Eberhart, Ph.D. Associate Professor University of Texas-Austin

Area of Expertise: *systematically varied zebrafish mutants to investigate mechanism of differential sensitivity to tissue-specific toxicity*

Thursday March 16th, 2017: John Barnett, Ph.D. Chair, Professor School of Medicine West Virginia University

Area of Expertise: *consequences to the immune system of exposure to xenobiotic compounds as well as the mechanisms of the carcinogenic effects of these compounds*

Thursday April 13th, 2017: John Postlethwait, Ph.D., Professor Department of Biology University of Oregon

Area of Expertise: genetic, genomic, and evolutionary principles that guide animal development

Thursday April 27th, 2017: Cornelis Elferink, Ph.D., Professor & Director Department of Pharmacology and Toxicology University of Texas

Area of Expertise: Aryl hydrocarbon receptor (AhR): Environmental sensor, role in physiology and disease

Thursday May 4th, 2017: R. Tomas Zoeller, Ph.D., Professor Biology Department University of Massachusetts

Area of Expertise: policy regarding endocrine disruptors in the environment (esp. PCBs, BPA & phalates)

Thursday May 4th, 2017: Angela Slitt, Ph.D., Associate Professor College of Pharmacy University of Rhode Island

Area of Expertise: expression of drug transporters affects chemical (i.e. drug and environmental chemical) disposition and toxicity, 2) nutrition and intake of dietary antioxidants affects the expression of drug transporters, 3) liver disease (i.e. diabetes, cholestasis, and ethanol cirrohsis) affects transporter expression and chemical disposition, and 4) transporter expression affects cholesterol transport and susceptibility to gallstone formation

NIEHS Grant No. P30 ES020957
