# Become an **AIRBORNE PARTICULATE MONITOR**

**DVERSE•INPHAASE ASTHMA STUDY 2015-17**

**Detroit teenagers  
with asthma  
Ages 13-17  
are welcome to participate  
in this study.**

**For questions,**  
please contact:

**Cheryl Miree**  
Henry Ford Health System  
phone: 313-874-6615  
e-mail: [DVERSE@hfhs.org](mailto:DVERSE@hfhs.org)

inphaase.php](http://dverse.wayne.edu/inphaase.php)

We are inviting 60 Detroit teenagers with asthma to participate in a study using a **Personal Air Monitor (PM)** to help us discover

- 1) what is in the air (particulates) that can affect asthma episodes,
- 2) how to communicate your experience with asthma and your findings about what is in the air.

**Your son/daughter will be helping with asthma research by**

- 1) being a "citizen scientist" in your community, and
- 2) contributing to the design a future PM and the development a digital asthma symptom diary.

*Workshop locations will be  
chosen based on where the  
volunteers live.*

**If you agree to be part of this study, your teen will be asked to**

- 1) carry and use a small PM and record their asthma experience over 14 days,
- 2) participate in a 3-hour Project Meeting to receive an asthma symptom diary and PM and learn about how to use them.

*These sessions will take place  
at Henry Ford Hospital.*

**Additionally we are looking for 12 of the teens who volunteer for this study to also participate in**

- 1) an initial 2-hour Workshop Planning Meeting to learn more about this study and becoming a citizen scientist and
- 2) a follow-up 8-hour Workshop to review the data collected from the PM, discuss their experience as a citizen scientist using the PM and symptom diary in this study, and brainstorm ideas for the development of a digital asthma symptom diary.

Teens can volunteer for these additional workshops!

If the teen participates in the study, the teen will receive a  
**\$20 gift certificate** when your teen consents to participate in the study and complete a baseline survey,  
**\$30 gift certificate** for attending the Project Meeting, and  
**\$40 gift certificate** when they return the PM and their asthma symptom diary.

If teens volunteer to participate in the additional workshops, they will receive a  
**\$15 gift certificate** for attending the Workshop Planning Meeting and  
**\$45 gift certificate** for attending the Workshop.
